# Safety / Security Barriers & Signage

## Portable Public Deterrents

These Crowd Control Systems include highly visible, unmistakable noticeability. The Bright Safety Yellow combined with Stark Black, provides high contrast that relays an instant cautionary message. **The all weather, high impact textured ABS base** is heavily weighted with solid metal for maximum stability and versatility. Choose the Extenda-Barrier Posts if your needs vary frequently. Our Traditional Posts are Ideal for a more permanent applications. Our Loop Crown Posts are a perfect, economical solution because our 1/2" plastic rope can be "Looped" through and the posts can be situated further apart, so fewer posts are needed in larger areas. High visibility signage adds a precise message to your system. Standard messages and custom signs are both available. Call for more details.
