RECYCLING RECEPTACLES

HALF ROUND FLOOR STANDING & WALL MOUNTED UNITS

Glaro "Value RecyclePro" Recycling Receptacles Half Round "Profile" Series

These economical, indoor/outdoor, space saving recycling receptacles are the product of choice for use near walls and partitions anywhere. This **Value Series** of recycling receptacles is identical to the standard Glaro Half Round Series except they offer greater savings because the steel inner liner can has been eliminated. Instead, Glaro heavy duty 2 mil clear poly liner bags do all the work. They fit over the top edge of the outer receptacle but are not visible because the top cover has been designed with an extra wide lip.

Designed and manufactured in the U.S.A. by Glaro craftsmen, these durable, all metal, half round, fire-safe recycling receptacles feature a full width piano hinged cover for added strength and easy maintenance. All recycling receptacles have rustproof aluminum bottoms. A large selection of easy to clean finishes is available.

All recycling receptacle models may be wall mounted with an optional mounting bracket to facilitate time saving, problem free, routine floor maintenance. The wall mounting bracket has convenient mounting holes positioned to match standard wall stud spacing.

Features and Benefits

- Space saving receptacles fit anywhere
- Sophisticated upscale look
- Floor standing and wall mounting option
- ADA compliant
- Seven available models
- Choose Finish Combinations for Lid & Body
- Durable piano hinged lid for easy access
- Constructed for indoor/outdoor use
- 29 baked powder coated finishes
- Satin aluminum and satin brass finishes
- Optional decorative metal bands
- Choice of Silk Screened Messages
