RECYCLEPRO MODULAR RECYCLING STATIONS are the next generation for recycling management. It is the only system of its kind. It is the largest, most diversified line of recycling receptacles offering an extensive selection of sizes, finishes, openings and silk screened messages. RecyclePro Modular Stations allow you to create your own recycling station with two or more receptacles. When using more than one receptacle you can easily connect the receptacles together to encourage use of the station. The primary components are the 12”, 15”, and 20” diameter single purpose individual RecyclePro receptacles.

The basic distinguishing feature of the receptacles in the Value Modular Series compared to the Glaro Recycle Pro I, II, and III Series, is that the need for an additional inner plastic container has been replaced by using heavy gauge custom sized clear poly bags that are designed to have a snug fit. LB12, LB15, and LB20 poly bags are purchased separately. Poly bags are easily pulled over the top up to a clearly marked guide-line provided on the outside of each receptacle near the top. When the receptacle cover, which has an extra long overlap, is placed on the body, the poly bag is completely concealed and secured in place.

FEATURES AND BENEFITS

- MODULAR RECYCLING STATIONS ENCOURAGE USE
- ALL METAL CONSTRUCTION
- INDOOR/OUTDOOR ALL WEATHER FINISHES
- ENGINEERED FOR DURABILITY
- CAPACITIES RANGING from 12 to 41 GALLONS Each
- SIZES of 12”, 15”, and 20” Diameter
- STYLES and FINISHES for EVERY FACILITY
- 29 DESIGNER COLORS and 2 METAL FINISHES
- CUSTOM FINISH COMBINATIONS AVAILABLE
- CUSTOM SILK SCREENED MESSAGES AND LOGOS
- OPTIONAL PLASTIC INNER LINERS
- MANUFACTURED IN THE USA
- DESIGNED AND PRODUCED FOR ENVIRONMENTAL SUSTAINABILITY

CONNECTED UNITS for VALUE MODULAR STATIONS

- When two or more recycling containers are used side by side they may be connected to each other in the sequence you specify. Each catalog number includes all the individual receptacles, hardware and connector brackets you need.
- For the same cost you may select any type of Glaro opening for the top cover of each unit.
- Also, at no additional cost, you may specify any standard Glaro silk screened message for the front of each unit to indicate the intended use of the unit.
- All necessary hardware and connector brackets are included and are easily installed.
- Any number of units may be connected to each other in a straight line. If you have a preference as to the order in which the different openings are arranged please indicate this or it will be determined at the factory.

**HOW TO ORDER**

1. SPECIFY CATALOG NUMBER
2. SPECIFY FINISH:
   - All Satin Aluminum (SA)
   - All Satin Brass (BE)
   - Powder Coat Designer Color Code * with Satin Aluminum Cover (SA)
   - Powder Coat Designer Color Code * with Satin Brass Cover (BE)
   - Powder Coat Designer Color Code * with Matching Powder Coat Color Cover (*specify code on right)
3. SPECIFY COVERS:
   - When ordering connected units you may select any cover opening with your choice of corresponding message at no additional charge. If no selection is made, the opening supplied will match the description provided for each catalog number.
4. SPECIFY MESSAGES:
   - Specify silk screened message and sequence of each receptacle from left to right. An international “Recycle Logo” and your message will be silk screened on the body of each recycling receptacles.
   - For custom messages contact our customer service hotline for immediate assistance at 888-234-1050.
5. POLY LINER BAGS
   - Order the recommended specially fitted LB12, LB15, or LB20 Clear Poly Liner bags which have been designed to snugly grip the top rim of the RecyclePro bodies. This insures that the overlapped portion of the bag will be concealed by the cover.
